5/17/24 friday (try to write small to conserve space): They want the dream! They want the dream! "This dream of life, and universal water, food, shelter, community." They love you, They love you!" ... But i'm in a rush! and the beautiful old growth trails soon were taken for granted or too distracting as I got into "workout mode": which is a type of autopilot / extreme focus (on long term / delayed gratification: The destination. I found a spot, now closer to the road and the whirring of wheels, the worrying of feels, do help with a sense of ... which I have so much. In order to reclaim: love is real. So why am I slacking on insuring my daughter or past friends / family health and well-being? My authority complex - I am afraid of being hurt. But the risk can be worth it - just as a proper meditation on Death would reveal a Proper Grieving

My PO talked of knowing my struggle, last year she had 8 deaths in 5 months in the family - Hospice related which was ... because the Hospice should have, could have coordinated that better: or it was "planned" by the "legal authority" or "power of attorney". Now I got really sad: wanted to call Danielle. It is sad I don't call my family more, but I'm still in the process of building my foundation - and will be a Light as we all well more better be on proper / balanced / monitored / attended / nurtured. "Tell me you love me!" "I Do! I Do! I Do! I'm sorry, lost in this maze / curse of love. Blessed, grateful, but so far behind what I ~~hope~~ can be!

I need to speak of more LIGHT TALK (not light babble) but important, inspiring, sparkling wonder and awe for our collective - - - How I've picked up traits, so selfish: Survival

The survival personal/ego, snatches lighters and is always on the look-out for being taken advantage of. My body will say "NO" you can't have my water bottle or food, or socks or i just don't carry much extra, minimal backpacker - wanting extra gear to hand out, when I do get to that point. But still fighting this cursed IDentity challenge which Veronica my assist. or I presume, my "dumb", "runaway" (being critical of my giving women too much space unless they explicitly state interest. I remember when Veronica asked for a ride home and then (from XC practice) she told me she liked me, and I was like heart floating "I like you too" a true fairy tale ~~woman~~. Whole relationship - only ended when I tripped on psych's and didn't know how to integrate new perspectives, so I instead just abandoned & kept wandering. Once they'll gone I'd ask again, ~~but it's to~~ if possible but they want action, not word. But that

be comes overbearing, stalker-ish if they say NO. But that's what some want to feel loved, to say "no", and have you keep trying anyway. How sad / childish / cute? BUT LOVE is not POSSESSION or Ownership - and this must be life's greatest/hardest lesson 7pm/- repeating the "I love you" chant / mantra - Thx Anne - the best one there is. Because well, maybe, the ulterior, ultimate, sub/unconscious is not only listening to everything even if you are not consciously, but ACTUALLY SHARING! These words, these thoughts. (The collective mind, tapping in and filtering/moderating out the Negative / fear media / disinformation / constant attempt to dismiss and destroy this dream. #LANDBACK (and other simple Truth, logic, justice / authority ~~~~ hippo-~~~~ criticisms in modern prevailing Pol-Sci : political science, ha! I tried to say - MORE LIGHT SPEAK ~ since I do not think these rants are so healthy.

questions as to the purpose
of a particular motion or
reason for such behavior.
By their very confession, I also
sometimes wonder, and I
forget my task. So I will have
to chant mantra when under
heavy surveillance, to remember
while I'm actively engaged, that
it is important.
TO BECOME A FREE-THINKER
or to hope to escape, overcome PTSD,
abuse unnecessary & harmful
lack of privacy. IF YOUR GONNA
WATCH ME, AT LEAST HELP, in
some way, but that could be
awkward, a paid surveyor
or watch man has only private
monetary interests. Though
I did notice a regard for
pacha mama or my tossing
stickers down on grass/pasture-
like this very few (coulda
swallowed (tiny)) would compost
better here than in a trash pile
